

PROJECT DOCUMENTATION

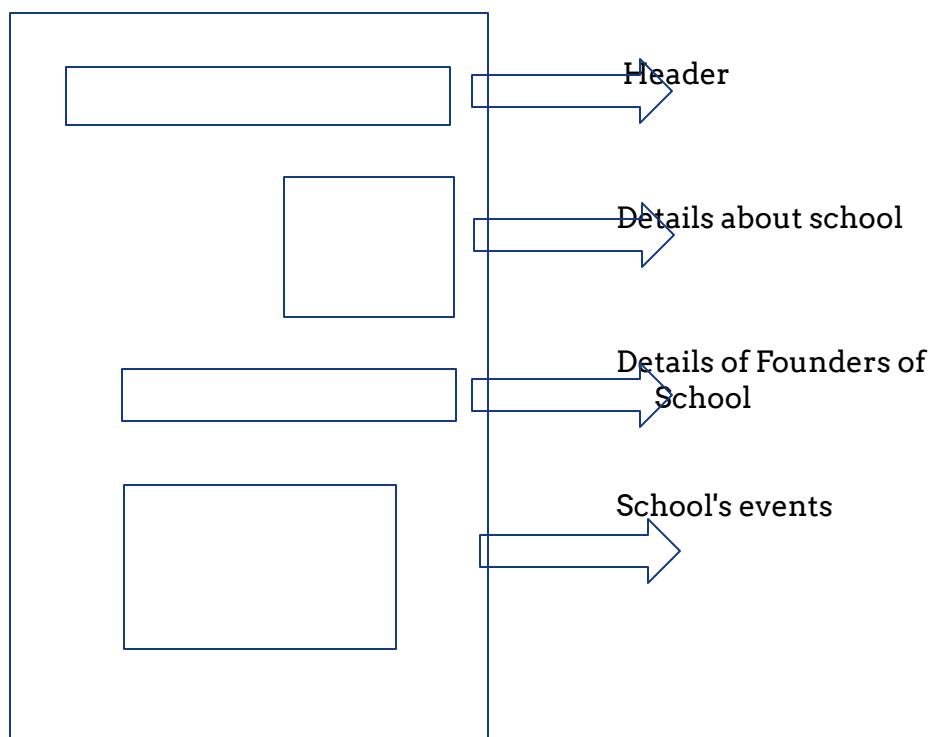

INTRODUCTION:

Domain of my project is "Education".The sub-domain is the school.The school which teaches the subject experimentally instead of textual.The project helps the school management in such a way that all the knowledge regarding the school is given in the project.It also helps the student and their parents too.

LITERATURE SURVEY:

The problem in some of the other websites is the approach to the members of the school.This website makes it easy to approach,like the details and also the social media approach.

THEORITICAL ANALYSIS:

EXPERIMENTAL INVESTIGATION:

I have made many investigations regarding wordpress and also the elementor in the word press.

While working with wordpress,it doesnot load my page in the chrome sometimes,then I have checked for that,then I came to know that "Bitnami Wordpress" should be always learning.

In case of elementor I came to know about many of the icons and buttons through my

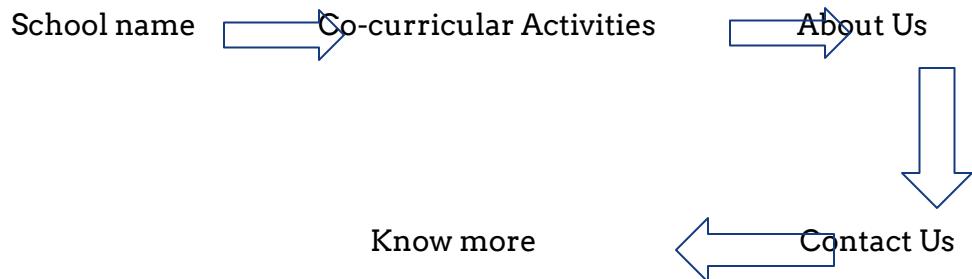

PROJECT DOCUMENTATION

research.

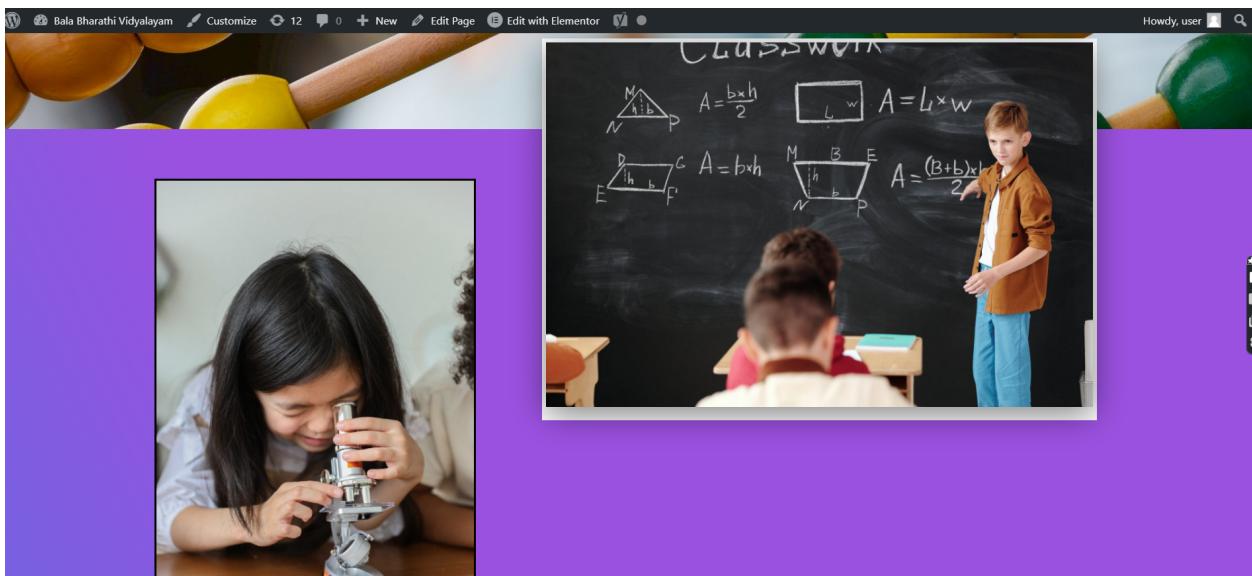

I also came to search for the SmartInternz login id pattern too.

The project also made me to search for the Json files and git usage and screenrecorder etc..

FLOW CHART

RESULT:

PROJECT DOCUMENTATION

Experimental learning makes your child to grasp the subject as well as to solve the real time problems

EXTRA-CURRICULAR ACTIVITIES

250
FACULTY MEMBERS

1000+
STUDENTS

50
IGNIS OLYMPIAD WINNERS

30
YEARS OF EDUCATION

An opportunity helps to find the hidden talent-Participation improves the Student's confidence in higher extent

PROJECT DOCUMENTATION

ADVANTAGES & DISADVANTAGES:

Easy grasping of content is an advantage.

Not much supportive with much features is the disadvantage.

APPLICATIONS:

Definitely applicable for every primary school in the situation of ADMISSIONS.

CONCLUSION:

The project and the platform for working on the project are good and supportive. There are many more to explore and create much effective websites.

FUTURE SCOPE:

Providing the admissions online only just by conducting an online test and also the fee payment option for all classes using E-commerce website.

BIBLIOGRAPHY:

No previous references, but used the YouTube and Google to know the way of usage of the Wordpress, pluggins, elementors
